COURSEWORK

UNDERGRADUATE

Data Structure

Design and Analysis of Algorithm

Operating System

Computer Network

Data Base And Management System

Digital System

Cryptography

SKILLS

PROGRAMMING

Over 5000 lines:

Java • C++ • Python • Javascript

NodeJs • ReactJs • ExpressJs

Over 1000 lines:

C • Nextjs • Flutter • PHP • MySQL

Familiar:

React Native • Kotlin • Angular • AWS

• Open Source • Docker

EXPERIENCE

GIRLSCRIPT SUMMER OF CODE | OPEN SOURCE CONTRIBUTOR

May 2024 – Aug 2024 | remote

- I made meaningful contributions to multiple repositories, focusing on bug fixes, feature enhancements, and code refactoring. This helped me deepen my understanding of different technologies and frameworks.
- I actively reviewed pull requests from other contributors, providing feedback and suggestions to improve code quality and project consistency.
- Full-stack developer - Wrote and reviewed code for JS using NodeJs , ReactJs , ExpressJs , Firebase , Nextjs etc.

PROJECTS

MERN ESTATE | WEBAPP

2023 | Bhopal, MP , India

This project is designed to provide a comprehensive solution for managing real estate listings, featuring user authentication, Google sign-in, image storage via Firebase, profile updates, listing creation and management, advanced search capabilities, and a communication channel for user queries.

[GitHub repo Link](#) [Live Demo Link](#)

BLOGAPP | WEBAPP

2023 | Bhopal, MP , India

This feature-rich application provides a complete blogging experience with user authentication using JWT. Users can explore blogs created by others, search for specific blogs, read and comment on posts, update and delete their profiles, and create, update, and delete their own blogs with titles, categories, images, and detailed descriptions
